

The need isn't for "a different database program."
The **true *daily* need** is an **end-to-end solution** where:

Everyone can **easily** get the information they need, *when* they need it – **anytime** – from **anywhere** they can get on the web.

in-C® automatically publishes and shares current information and **this transforms**

- how the office performs and
- how the presbytery serves its churches.

Presbyteries using **in-C®** today:

**in October 2018*

-  Grace Presbytery in Dallas, Texas
-  Presbytery of Chicago in Chicago, Illinois
-  The Presbytery of New Covenant in Houston, Texas
-  The Presbytery of New Hope in Raleigh, North Carolina
-  Salem Presbytery in Clemmons, North Carolina
-  The Presbytery of Hudson River in Scarborough, New York
-  The Presbytery of South Louisiana in Baton Rouge, Louisiana
-  Presbytery of Coastal Carolina in Elizabethtown, North Carolina
-  The Presbytery of Detroit in Detroit, Michigan
-  The Presbytery of Giddings-Lovejoy in St. Louis, Missouri
-  The Presbytery of Geneva in Penn Yan, New York
-  The Presbytery of Riverside in San Bernardino, California
-  The Presbytery of Tropical Florida in Deerfield Beach, Florida
-  Presbytery of San Jose in San Jose, California
-  Presbytery of Northwest Coast in Everett, Washington

What presbyteries are saying

I have loved working with **in-C®**. The best part for me is that I can securely work on it **from anywhere!** The level of detailed information that is **in one place** for all of our staff to access **anytime** is a wonderful asset to our presbytery. The customized lookups and **phenomenal customer support** can't be beaten. I wish we had switched over to **in-C** sooner!

Theodora Pounds, Editor
Presbytery of New Covenant

We are thrilled with our investment and its possibilities for our Presbytery!

Jan Krause, Admin/Finance
Presbytery of Coastal Carolina

in-C® has been an **invaluable addition** to our presbytery office. We went from a complicated system that one or two people used only when absolutely necessary to a straightforward system that is the **backbone** of our **support** of, and **communication** with, congregations and ministers. **Excellent new features keep getting added month after month**, so the value to us only keeps going up! Having now used four different database systems on staff in two different presbyteries, I am convinced that **in-C has the best implementation of the features that presbyteries need to further their mission of supporting congregations in their witness to the Gospel.**

Rev. C. Anderson James
Associate for Small Church Ministries and Technology
Presbytery of New Hope

in-C® provides **formidable support** for the interrelated needs of our committees and **presbytery-wide communication.**

Rev. Bryan F. McFarland, Communications Coordinator
Salem Presbytery

The cost of the service has been minimal because it has saved us so much time in preparing, printing, and mailing of directories; updating corrections in the directories; keeping churches up to date with information; having a precise map online of our churches; and so much more.

We couldn't be happier.

We look forward to learning so much more that this program can do for us in the future.

Edd Breeden, Treasurer
San Jose Presbytery

Go for it! You'll be glad you did.

Bill Reinhold, General Presbyter
Presbytery of Coastal Carolina

There's a
smarter
and
easier
way to
manage and
share
the information
that everyone
wants to see.

in-C®
See it in **C**ontext.

Organize,
modernize
and
empower
your entire presbytery
in a seamless transition
that takes less than
one month.

The problem: The daily “bottleneck” at the presbytery office

- Only one “techy” person has access to data
- Overwhelming amount of information that’s constantly incoming and **always changing**
- Scattered, incomplete spreadsheets
...that immediately go **out-of-date**
- Hours spent updating and publishing directories
...that immediately go **out-of-date**
- Small staff is spread thin
- One change has to be made in **five or more** places

The solution: in-C®

in-C® centralizes your information online in a custom-made communications platform *that’s designed *just for* a presbytery office* that produces **and updates** the PDFs and web views your churches want **automatically.**

in-C® produces a **Presbytery Web Directory** that *automatically* publishes
daily updated **Committee Rosters** and
your *current* **Pulpit Supply List** – and much more!
for the churches to see and print anytime.

AUTOMATIC PDFs
all your directories and rosters

AND WEBSITE
for your churches

in-C® creates **intelligent, dynamic groupings** that make **useful** results one click away:

- Click once to see every interim in Region 4.
- Click once to email every committee chair.
- Click once to see who needs contracts renewed.
- Click once to see TE's on the PSL who need boundary training.

in-C® replicates your efforts: When you change a phone number **one time** in **one place** it’s changed on the **ten or more** PDFs and web views where it appears, **automatically.**

*In the past it could take three people to perform every change, update, and upload. Now, when the change is made **once** in **in-C** the person’s information is changed in: the Directory, the Pulpit Supply List, the Committee Rosters, our Groups, and our Contacts, **right then!***

Kim Nichols
Salem Presbytery

- No software to install
- No servers, no maintenance
- Transition is seamless
- Setup takes less than a month
and we clean up your data in the process.

It’s like we finally cleaned out the attic!

Bryan McFarland
Salem Presbytery

- **Every feature** is included at \$349.99/mo
- **No** hidden “add-ons” or extra charges
- Best ideas **crowd-sourced** from each presbytery
- **New features** added automatically
- **Flat, fair pricing:** in-c.net/pricing
- **Unchanged** total annual cost since 2014
- Premium **personal** support also **included**

Support feels like having someone right down the hall.
