# Automate
time-consuming directory-making

Share
every update effortlessly

and start building and preserving a

History
of your presbytery's information

in Context

in-C®

See it in **C**ontext.   in-c.net

It's the best designed
back-end information system
for a presbytery office...

And it's the **only** solution that automatically makes a
Presbytery Web Directory for your churches that's
designed just for presbyteries and requires
NO web publishing steps on anyone's part.
